PROFILE

I am an open-minded individual with interpersonal and technical skills in graphics design, web development, database, online Digital Marketing and other computer packages including software and hardware.

My development career started in 2014 from Wordpress, and since then, I have built over 20 professional websites, two mobile applications with flutter and tons of graphics for divers clients.

I am an energetic and ambitious person who has developed a mature and responsible approach to any task that I undertake, or situation that I am presented with.
